TECHNICAL SPECIFICATIONS

BATTERY COLLECTION BIN WITH GRAPHIC 20L

FEATURES

- Designed to encourage increased recycling rates for batteries, these freestanding units are a common site in large footfall locations, such as supermarkets, leisure complexes, and offices.
- Manufactured with a clear polycarbonate tube to ensure the contents remain visible and to help prevent cross-contamination.
- Each unit comes with a small aperture to ensure only the required sizes are collected and supplied with a battery label to place across the front of the bin.

SPECIFICATIONS

- Manufactured in the UK.
- 20 Litre capacity.
- 2 Carry handles to help with emptying and moving.
- Clear tube.
- Small aperture.
