TECHNICAL SPECIFICATIONS

BATTERY POD - AVAILABLE IN 3 SIZES

10/18/30L

FEATURES

- Store used batteries safely in the workplace with these top-quality Battery Pod Recycling Bins. Made right here in the UK, they are manufactured from medium density polyethylene, a 100% recycled plastic, and fitted with a WRAP compliant colour-coded lid and graphics to ensure they are used correctly in busy working environments.
- Ideal for workplaces where batteries are disposed of on a regular basis such as offices, workshops, and factories, and public areas such as supermarkets, these Battery Pods are available in three sizes ranging from 10 to 30 litres, and designed to store batteries safely until they are collected or delivered to the recycling bank.
