## CLEAR-SIDED GLASS FIBRE WASTE BIN **120L**

### FEATURES

- Apertures are available on all side, allowing easy access. The bin comes in a range of colours and a selection of finishes including a textured paint finish, cast iron, or Victoriana finishes, ranging in levels of smoothness.
- This bin can also be fitted with an ashtray, stubbing plate, gum chute, and a slam lock as additional extras.
- Made from glass fibre composite, this bin is strong and durable, resistant to rust, corrosion, adverse weather and salt, making it ideal for seaside towns, roadsides and market towns.

### Specifications

- Durable Glass Fibre Composite (GFC) Construction.
- Transparent Polythene Panels for Visibility.
- Four Large Apertures for Easy Waste Disposal.
- Customisable Colour Options.
- Compatible with Ashtray Attachments.
