TECHNICAL SPECIFICATIONS

DOG WASTE BIN

50L

FEATURES

- Manufactured from epoxy powder coated steel, it features a galvanised inner liner, a heavy-duty door with a tamperproof locking mechanism, and an innovative lift-up aperture with a built-in shelf to help prevent unpleasant odours.
- Available in red or black to complement both rural and urban environments, this Dog Waste Bin can be mounted to virtually any flush wall surface, or post mounted with the optional purchase of a solid steel post. With a total capacity of 50 litres, it is a great choice for busy dog walking areas where waste has become an issue.
