

## EKO RECYCLING STATION

# 45L

**45L**  
Capacity

Quality stainless steel construction

Includes 3 x 15-litre plastic liners

### TECHNICAL SPECIFICATIONS

## EKO RECYCLING STATION

# 45L

### FEATURES

- Made from robust stainless steel, it features 3 x 15-litre compartments, and it includes three coloured graphics to help you separate different types of waste.
- With hinged doors and removable plastic liners to facilitate emptying and cleaning, the Eko Recycling Station is easy to maintain.
- It has a stylish matt finish to complement both indoor and outdoor landscapes, making it both practical and aesthetically pleasing. You can mount this recycling bin to the wall to create a semi-permanent structure or use it as a free-standing recycle station.

### SPECIFICATIONS
