Suitable for internal or external use

TECHNICAL SPECIFICATIONS

EXTERNAL SLIM DESIGN RECYCLING BIN

80L

FEATURES

- Suitable for internal or external use, featuring a galvanised liner as standard boasting an 80-litre capacity this would be perfect for medium/high footfall areas, especially with locations with narrow locations.
- The bin contains a hooded dimpled top to help aid with rainwater runoff and acts as a deterrent for fly posters.
- The outer shell of the bin comes as black as standard, but many other colours are available.

SPECIFICATIONS

- Galvanised liner as standard.
- Slide door for liner access.
- Can be used either side by side or back to back.
- Lock included as standard.
