## TECHNICAL SPECIFICATIONS

## EXTERNAL RECYCLING BIN

# 112L

### FEATURES

- Fully customisable with a range of lid options, apertures, colours, and Perspex recycling plates to complement all high footfall areas, this 112 Litre External Recycling Bin is a great investment for schools, leisure complexes, public parks/gardens, town centres, and busy shopping areas.
- Manufactured in the UK using only the finest powder-coated steel, this large recycling receptacle is suitable for outdoor use and designed to retain its smart appearance, no matter what the weather decides to throw at it. On the inside, a galvanised steel liner and deflector plates aid correct waste disposal, and it is equipped with a fully hinged door to facilitate emptying and cleaning. A tamper-proof slam lock mechanism adds the finishing touch to this well-priced recycling bin.

### SPECIFICATIONS

- 112-litre capacity.
- Galvanised liner as standard.
