FIRE RETARDANT SACKHOLDER

50L

FEATURES

- Designed for daily use in hygiene sensitive environments such as hospitals, care homes, food preparation areas, and chemical premises, it is approved to current NHS fire and safety standards, and designed to offer hands-free waste disposal.
- Made from powder-coated steel and equipped with a foot pedal mechanism, this 50 Litre Fire Retardant Sackholder Bin is available in five different colour options, and with a choice of lid colours to suit different types of waste. Fitted with wheels and a handle for manoeuvrability, this is a great choice for all professional areas.

SPECIFICATIONS

- Pedal Operated for Hands Free Disposal.
- Approved to Current NHS Fire & Safety Regulations.
- Wheels and Handle for Manoeuvrability.
- Soft Closing Lid.
