TECHNICAL SPECIFICATIONS

FREESTANDING SACK HOLDER - AVAILABLE IN 2 COLOURS

FEATURES

- Commonly used in hospitals, care homes, and hygiene sensitive areas, this Free Standing Sack Holder is a versatile rubbish receptacle with an integrated foot pedal mechanism for hands free disposal and an integrated bungee cord to keep the bin liner firmly in place.
- Manufactured from powder coated steel, this Free Standing Sack Holder features a wide base plate to support the liner when full, and it can be customised with the optional purchase of wheels to create a mobile structure.
- Available in white, blue and yellow to complement all professional working environments, it is a great value receptacle.

SPECIFICATIONS

- Free Standing Sack Holder.
