

GALVANISED STEEL EXTERNAL LITTER BIN

95L

95L
Capacity

Galvanised steel liner

Hooded Lid with Wide Aperture

TECHNICAL SPECIFICATIONS

GALVANISED STEEL EXTERNAL LITTER BIN

95L

FEATURES

- Manufactured from premium quality steel and designed to withstand all weather conditions.
- Featuring a rounded lid to prevent items from being left on the top, two large apertures to facilitate waste disposal, and a removable inner liner, which is accessed via a self-locking hinged door.
- Customisable with a range of options to complement every workplace, this Galvanised Steel Outdoor Rubbish Bin has a pre-drilled base that allows it to be secured to the floor with fixing bolts, and it can be used for collecting both recyclables and general waste.

Specifications

- Pre-drilled base.
- Rounded Lid.
- Galvanised steel liner.
- Hinged self-locking door with slam lock.
