request

TECHNICAL SPECIFICATIONS

GRIT BIN

350L

FEATURES

- Manufactured from tough weather resistant plastics and designed to hold up to 350 litres of grit or salt, without taking up too much valuable floor space.
- For ease of access, this large outdoor Grit Bin is equipped with a sloping hinged lid, and it can be secured with the optional purchase of a hasp and staple lock, which can be factory fitted for added security in unmanned areas. Made from hardwearing medium density yellow polyethylene and designed to last for years with a minimal amount of maintenance, it is a great investment for any UK company or public office.

SPECIFICATIONS

- Yellow Polyethylene Construction.
- Total capacity of 500 litres.
- Hinged Lid.
- Hasp & Staple lock can be fitted upon request.
