TECHNICAL SPECIFICATIONS

IROKO HARDWOOD BIN

98L

FEATURES

- Crafted from FSC certified African Iroko Hardwood, a robust and durable timber that is both weather and stain-resistant, it blends seamlessly into green areas such as parks, woodlands, and forests, where it will provide members to the general public with a stylish waste disposal system.
- On the inside, this Iroko Hardwood Outdoor Rubbish Receptacle is equipped with a steel carcass, a galvanised liner, and 4 large apertures to facilitate waste disposal from all angles. A front access door equipped with a t-key lock adds the finishing touch to this large 98-litre litter bin.

Specifications

- Iroko wood (will require regular annual maintenance).
- Stain Resistant/Tough/Durable.
- Galvanised steel liner.
- Hinged lockable door.
- FSC certified wood.
