Integrated caddy for food waste

TECHNICAL SPECIFICATIONS

JOSEPH JOSEPH TOTEM RECYCLING BIN

60L

FEATURES

- Collect, sort, and recycle multiple types of waste in one convenient receptacle.
- Two 30-litre compartments stacked on top of each other.
- The top compartment includes a food caddy for leftovers, eggshells, coffee grounds, and compostable items, while the lid features an odour-control filter.
- Ideal for busy areas, and perfect for separating different waste streams in one stylish bin.

SPECIFICATIONS

- Push aperture.
- Odour-control filter.
- Available in two colours.
