METRO SMART E-BIN OPEN TOP

85L

FEATURES

- Made from 100% recycled materials, the Metro Smart E-Bin is the perfect rubbish receptacle for environment-conscious schools, businesses, and commercial premises.
- Custom-made to order, this eye-catching litter bin features a wide aperture to facilitate waste disposal on the go, and it has a removable lid for quick and easy cleaning. It includes a removable plastic liner as standard, with galvanised steel options available upon request.
- A British-made masterpiece, the Metro Smart E-Bin is manufactured in the UK using recycled plastic chippings. As each bin is unique, it is ideal for adding colour and character to parks, school playgrounds, and shopping centres and, as it has a generous capacity of 85-litres, it is perfect for collecting large amounts of rubbish in high-traffic areas.
