TECHNICAL SPECIFICATIONS

MIDI LITTER BIN

52L

FEATURES

- The midi litter bin is manufactured from recycled plastics and polyethylene making it suitable for indoor or outdoor use, the materials used to make the bin hard wearing and will require little maintenance when in use outside and not rust or corrode.
- As standard, the bin will come with a galvanized liner which is accessible by removing the top of the receptacle.

Specifications

- Choice of flip top lid or open aperture.
- Environmentally friendly.
- Easy to clean.
