## MINI TORPEDO RECYCLING UNIT 48L

### FEATURES

- Manufactured from top-quality galvanised steel, the Mini Torpedo Recycling Bin has been coated with nickel silver powder to increase visibility in busy public areas, and it is available with two different apertures; 50/50 or 70/30 to separate general waste and mixed recycling.

### SPECIFICATIONS

- Galvanised steel construction.
- Nickel silver powder-coated.
- Total capacity 48 litres (2 x 24ltr inner compartments).
- Choice of 2 apertures.
- Space-saving design fits under desks.
- Bright recycling labels included.
