## TECHNICAL SPECIFICATIONS

## POWDER COATED STEEL SAFETY BIN

# 13&20L

### FEATURES

- Manufactured from premium quality powder coated steel, it has a seamless liquid tight shell, a removable lid, and a large aperture to facilitate waste disposal.
- Self-extinguishing, this innovative Powder Coated Steel Safety Bin is designed to put out flames before they get out of hand, making it the ideal choice for busy offices where large volumes of paper waste are collected. Available in 13 and 20 litre options.
