SELF EXTINGUISHING WASTE PAPER BIN

30L

FEATURES

- Designed for daily use in professional working environments, this Self-Extinguishing Waste Paper Bin has been specifically designed to shut off oxygen in the event of a fire.
- Manufactured from fire-resistant powder coated steel, this Self-Extinguishing Waste Paper Bin features a lift off lid, a large aperture, and an easy clean surface that can be wiped down with regular detergents to keep germs and bacteria at bay.
- This fire resistant bin can be wall mounted with the optional purchase of a wall bracket.

SPECIFICATIONS

- Durable plastic construction.
- Slim design for space-restricted areas.
- Removable lid available in 6 colours.
- Domed lid available.
- Bag retention system.
- Includes the recycling sticker of your choice.
