## SQUARE METAL CIGARETTE END BIN

# 56L

### FEATURES

- Manufactured from weather-resistant powder-coated steel, it features a large stub plate to ensure all cigarettes are fully extinguished before being placed in the bin, a galvanised inner liner to speed up emptying and cleaning, and a 'No Smoking' plate comes as standard. Offered in a choice of stylish colours including black, silver and red to complement all outdoor environments, this Cigarette End Bin can be both floor and post mounted with the optional purchase of fixing bolts to create a lasting solution to cigarette waste.

### SPECIFICATIONS

- Galvanised steel features.
- Powder-coated for weather resistance.
- Steel stub plate.
- Standard Perspex 'No Smoking' Plate.
