## TECHNICAL SPECIFICATIONS

## THE COMPASS LITTER BIN

# 112L

### FEATURES

- Manufactured from tough polyethylene, a weather-resistant plastic that will not rust, dent, corrode or fade, even when subjected to several years in direct sunlight.
- Featuring a dome-shaped lid, 4 large throw-in apertures, a galvanised liner, a front access door with a slam lock mechanism, and it comes complete with stylish gold banding and the world 'LITTER' moulded into each side.

### Specifications

- Polyethylene construction.
- Galvanised inner liner.
- Available in 4 colours.
- Front access door with slam lock mechanism.
- Compass design on top of lid.
