TECHNICAL SPECIFICATIONS

TRIPLE WOOD RECYCLING BIN 294L

FEATURES

- The perfect recycling station for playgrounds, theme parks, garden centres, and picnic areas, this Triple Wood Recycling Bin complements rural landscapes, blending seamlessly into natural surroundings.
- You can customise this receptacle with the recycling apertures of your choice, and choose from a smooth or textured finish. It is pre-drilled for ground fixing, bolts available to purchase separately.

Specifications

- Robust glass-fibre composite shell.
- FSC certified timber slats in light, natural, or dark oak.
- Shell available with a textured or smooth finish.
- Includes three removable galvanised steel liners.
- Customisable with the three recycling apertures of your choice.
- Lockable to prevent unauthorised access and tampering.
- Pre-drilled for ground fixing.
