

WHEELIE BIN

360L

360L
Capacity

Made from Injection Moulded Plastic with UV protection

Manufactured & Tested to European Standard EN840

TECHNICAL SPECIFICATIONS

WHEELIE BIN **360L**

FEATURES

- Made from a single piece of injection moulded plastic, this robust wheelie bin has been reinforced with strength additives for added resistance to UV and extreme temperatures, and it is approved to European Standard EN840.
- Fitted with a solid steel wheel axle with sturdy wheels for optimal manoeuvrability, this 360 Litre Wheelie Bin is easy to move, even when full to capacity. It features a lift up lid with integrate handles, and it comes in a choice of six modern colours, including Red, Blue, Charcoal and Brown.
